DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: In regards to claims 1, 15, and 21, the prior art of record fails to disclose "wherein said adhesion layer contains metal component and serves as a common electrode for said laser oscillation sections, wherein said semiconductor laser device further comprises a metal-diffusion preventing film for preventing metal diffusion between said adhesion layer and at least one of said semiconductor films". The remaining claims 2-32 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1-32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Floyd (US pat. 6,282,220), Onishi (US pat. 6,661,824), and Tan et al. (US pat. 6,252,896) disclose a semiconductor laser device for emitting a plurality of laser beams having different wavelengths.
